

PRESS RELEASE

Global eProcure Wins Supply & Demand Chain Executive's Green Supply Chain Award

CLARK, NJ— November 8, 2010 — [Global eProcure](http://www.globaleprocure.com), a leader in [procurement](#) consulting and technology services, today announced that it has been named the winner of the 2010 Green Supply Chain Award by Supply & Demand Chain Executive magazine. Global eProcure was recognized as a leader in providing supply chain solutions and services that are helping its customers realize their own green or sustainable supply chain goals. GeP Suite 5.0 [procurement automation](#) software and expert consulting services are proven to help customers execute on their green or sustainable supply chain strategies in the two key areas of strategic sourcing and purchasing process automation.

The 2010 Green Supply Chain Awards recognize providers of supply chain solutions and services that are assisting their customers in achieving measurable sustainability goals. Global eProcure's sustainability solution is customizable for clients across all industries, and was selected for this award out of 120 total entries. Winners of the 2010 Green Supply Chain Awards are judged based on the clarity and content of the goals and strategy, the extent of the steps being taken, the impact of the results to date and projected results, and the form and presentation of the information submitted. Global eProcure's sustainability strategies include traditional initiatives to reduce energy consumption, encourage recycling, as well as more innovative plans involving procurement and strategic sourcing of environmentally-friendly components and products.

“Global eProcure achieved the 2010 Green Supply Chain Award because our sustainability initiatives are built to be easily and seamlessly rolled out by our customers as part of their overall sourcing or procurement plan –making it easier than ever for companies to go green,” said Jagadish Turimella, CTO, Global eProcure. “While transforming the procurement process, we can also transform customers' sustainability policies by connecting them with selected vendors who follow green practices.”
